## Education

---

**GTU**

*B.E in Information Technology*

**March. 2008 – July 2016**

*Vadodara, Gujarat*

## Experience

---

**Rishabh Software**

*Sr Software Engineer*

**Dec 2019 – Present**

*Vadodara, Gujarat*

- Enhanced WordPress themes and plugins, integrated with WordPress Gutenberg and third-party APIs.
- Designed and maintained RESTful APIs and microservices with Node.js, ExpressJS, and basic Java.
- Managed NoSQL and SQL databases, optimized data models and queries.
- Worked with CMS platforms (Contentful, Sanity) for backend integration and content strategy.
- Collaborated with teams for seamless feature delivery, trained staff on CMS best practices.
- Wrote clean, maintainable TypeScript code and followed software engineering best practices.
- Built web apps with ReactJS, TypeScript, and Next.js; managed state with React hooks and Redux.
- Used Docker for consistent development and deployment; set up CI/CD pipelines and optimized workflows.

**Krish Compusoft Services**

*Software Engineer*

**March 2018 – September 2019**

*Ahmedabad, Gujarat*

- Enhanced WordPress with Gutenberg, developed reusable code libraries, and integrated third-party APIs.
- Built and maintained RESTful APIs and microservices using Node.js and ExpressJS, and managed databases.
- Migrated JavaScript to TypeScript for better quality, collaborated on CMS integration, and used Docker and CI/CD for deployments.

**TOPS Infosolutions Pvt. Ltd**

*Wordpress Developer*

**July 2016 – February 2018**

*Ahmedabad, Gujarat*

- Developed and optimized dynamic WordPress websites using HTML/CSS templates, leveraging Java basics for additional functionality and backend integration.

**CJ Web Solution**

*Wordpress Developer*

**November 2015 – April 2016**

*Ahmedabad, Gujarat*

- Developed APIs using CodeIgniter and PHP, integrating them with front-end web applications.

**Sanah InfoSolutions Pvt Ltd**

*Wordpress Developer*

**November 2014 – April 2015**

*Vadodara, Gujarat*

- Customized WordPress themes and plugins, developed from PSD designs, enhancing functionality and integrating third-party APIs and services.

## Projects

---

**TuckerTub** | *PHP, WordPress Headless, React, Next.JS*

- Developed a Headless CMS using WordPress (Gutenberg) with GraphQL API integration for building a responsive front-end application in Next.js.
- Designed and implemented custom RESTful API endpoints in WooCommerce to enhance features such as abandoned cart management and email verification processes.

**Freightmate** | *WooCommerce, PHP, JavaScript, Rest API*

- Developed the "Freightmate WooCom App" extension for WooCommerce, allowing the creation of consignments from orders, generating manifests, and tracking consignments.
- Integrated Freightmate APIs into the plugin, streamlining configuration settings and enhancing functionality and user experience.
